

Safety & Health Risk Assessment Matrix

Increasing Probability of Adverse Outcome ⇨

	A	B	C	D	E
Consequence	Unlikely	Seldom	Occasional	Likely	Frequent
No Injury	I	I	I	I	I
Slight Injury	I	I	I	I	I
Moderate Injury	I	I	I	II	II
Serious Injury	I	II	II	II	III
1 -3 deaths	II	II	III	III	III
Many Deaths	III	III	III	III	III

Increased Risk ⇨

Orange and red risk means a higher degree of assessment is needed
(e.g. What-if Analysis, HAZOP, Fault Tree Analysis, ...)
